A series of articles based on a long-term plan

A series of films was presented.

- Rise of the Planet of the Apes
- Dawn of the Planet of the Apes
- War for the Planet of the Apes

As their homage, a series of articles is published.

- Rise of the Visible Monkey (2019)
- Dawn of the Visible Monkey (2020)
- War for the Visible Monkey (?)

The successive articles based on a long-term plan are predictable, cumulative, contributing.

- Rise - Sectioning
- Dawn - Segmentation
- War - Virtual reality

I am even considering to publish a series of nine articles, like the nine episodes of Star Wars.

I will chase only one goal.
